

MENNO® CLEAN

Cleaning agent for spraying, pouring
or foaming for the non-European market

Foaming cleaning agent (acidic liquid, water-soluble concentrate)
for hygienic purposes in horticulture, agriculture,
for vegetable and food production.

For commercial use only

MENNO® CLEAN is our new cleaning agent for the non-European market capable of removing a wide range of contaminants from a variety of surfaces, including plastic, styrofoam, metal, glass, and more. It is effective in removing both organic and inorganic dirt, as well as plant and colour residues.

The product effectively removes stubborn dirt and plant debris from a wide range of surfaces, including energy screens, shading, Mypex/ribbon fabric, roller tables, greenhouses, film tunnels, multiwall sheets, pots, crates and more.

The cleaning agent demonstrates excellent results in food processing, particularly in the removal of soiling or plant residues from cutting, peeling, and sorting machines, as well as transport trays and belts.

Dosage:

1% or up to 4%. Stir properly while preparing the mixture.
Add 1 L product in 99 L of water (1%) or 4 L product in 96 L of water (4%).
Use 0.2 L of this mixture per square meter.

Usage:

Apply to the surface evenly, leave for 3 to 60 minutes or up to 16 hours and rinse the surface if required.
Recommended use as spray or preferably as foam.
